Developing critical thinking of vulnerable adults to counteract disinformation across Europe

Learn more about the project.

Project News

Welcome to desinfoEND project, which started in February 2022 and will last for two years, until February 2024. The goal of this project is to combat disinformation across Europe by developing critical thinking and media literacy skills of vulnerable adults. In the long-term, their active digital participation and social inclusion will be enhanced.

To achieve this goal, two outputs will be created: 1) an innovative toolkit, co-created with vulnerable adults that supports inclusive and participative ICT and Media Literacy training through the implementation of SEAs with a participatory, sustainable and dialogic approach, 2) a training of adult education professionals and volunteers on how to combat disinformation in their ICT courses and/or courses in other areas of knowledge, using the DMDL methodology. The curriculum of the training is designed with the contribution of every partner and will be released soon.

Let's meet the partners of the project

Asociacion de Personas Participantes AGORA (Spain, coordinator)

The Association of participants Ágora is a non-governmental organization working in the field of adult education and training. It carries out activities addressed to adults that do not have academic training, especially those from vulnerable groups who are at risk of social exclusion. Ágora provides an educational setting for about 2400 participants and has more than 150 volunteers. It offers a wide range of activities, including language learning, basic literacy, ICT training groups, and dialogic gathering in Literature, Mathematics, Arts, and Science, among many other activities.
